Consent Form for Publication of Student Work and Photographs

24 October 2017

Dear Parents,

We have recently rebuilt our website and are looking forward to going live in the near future. Our website will contain photographs of students at work, at play and contain student work samples. No names or identifiers will accompany any photograph of students at our school unless specific permission is sought from a parent or guardian. Additionally, student work will be identified by first name and year level only. I would also like parents to reaffirm their consent or non-consent for other publication media in case their views have changed.

Kind regards,

Neil O'Sullivan
